

ROOF MAINTENANCE PROGRAMS

At Southern Roofing Group we offer specialized maintenance plans for commercial and residential customers ensuring asset protection and reduced Long-term repair costs.

These maintenance plans are designed to extend the life of your roofing system, catch minor issues before they become major repairs and establish peace of mind for property owners and property managers. Our Programs scale based on the age and condition of your existing roofing system. Our scalable plans are designed to meet the needs of any structure no matter the size and/or roof age.

Our Roof Assurance Programs go beyond routine maintenance. Designed for both commercial and residential properties, this program offers comprehensive protection, extending the life of your roofing system while reducing long-term repair costs. With several major hurricane recovery efforts within our experience, we have seen how often insurance claims get denied due to lack of Pre-Storm Documentation nearly 75% of all claims are usually denied due to this issue. Our Maintenance programs provide not only inspections and upkeep but also detailed photo reports and condition records that help protect your investment and support insurance claims.

Our Programs are scaled based on the roofs age and condition to ensure optimal care for any property.

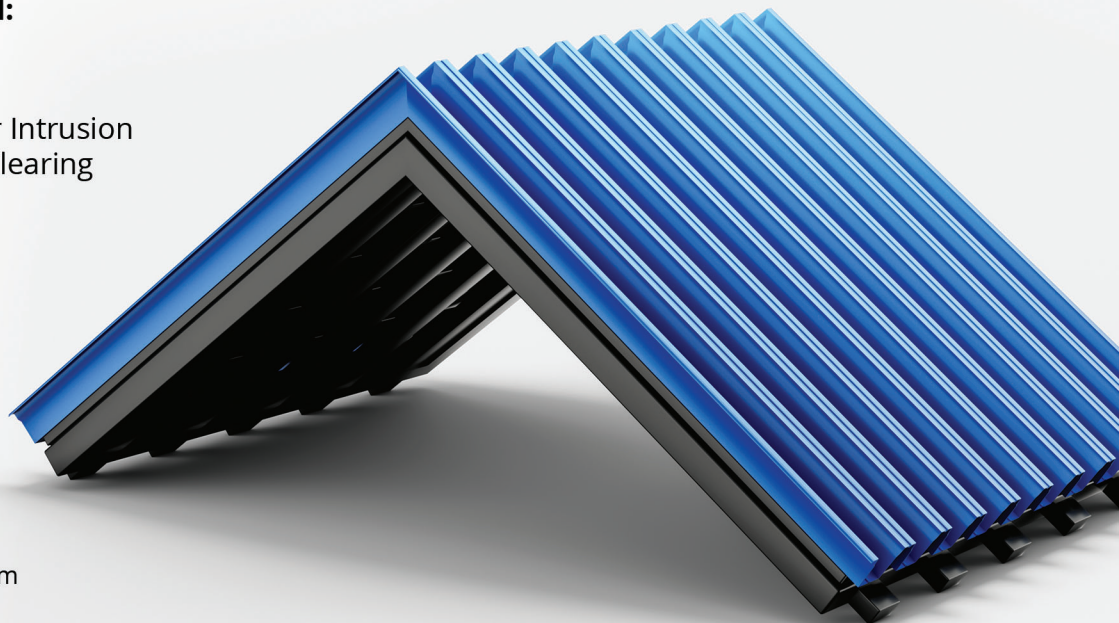

Additional Services Offered:

- Wind Mitigation Survey
- Soft/ Wash / Roof Wash
- Thermal Imaging For Water Intrusion
- Gutter / Drain Cleaning & Clearing
